On the occasion of Dr. Lesley Brown's Installation

Congratulations Dr. Brown, not only on your installation as President, but for the unique honour of being the first President to be formally installed at Yukon University. It is indeed an exciting time to be leading the university and contributing to the lives of its learners in Canada's North.

I was so interested to hear of the elements of the ceremony that will honour the First Peoples of the Yukon, adding depth and meaning to the university's tradition. I am sure it will be a wonderful event.

On behalf of Athabasca University, I would like to extend my best wishes on your continued success as President of Yukon University.

Sincerely,

**Professor Peter Scott, PhD, FRSN**

President
